Varvara Bougiouri graduated from the School of Chemical Engineering (N.T.U.A.) in 2005. During her studies, she has participated in the Double Diploma Program: "TIME" (Top Industrial Managers of Europe) and has obtained a second diploma (Master's Degree) from Ecole Centrale des Arts et Manufactures de Paris (E.C.P.). She has a second Master's Degree in the field of "Monuments' Protection" (NTUA).

She has worked in the private sector from 2006 to 2009, when she started working as research associate at the Shipbuilding Technology Laboratory of the School of Naval Architecture and Marine Engineering (NTUA). Since 2018, she is working as research associate/projects' manager at the Laboratory for Floating Structures and Mooring Systems (LFSMS) of the School of Naval Architecture and Marine Engineering (NTUA).
